ALTERNATES:

ABSENT:

1. ROLL CALL

There was a quorum

2. PUBLIC HEARINGS

None

3. UNFINISHED BUSINESS

None

4. NEW BUSINESS

1. **IW 08/20 #08 – Valley Water Systems – Declaratory Ruling** – Construct water softening building in an upland review area.

Joe Paragenie, Engineer of Weston and Sampson, presented to the committee.

VWS seeks to construct a 1066 square foot building in the upland review area near the Woodford Avenue wellhead. The purpose of this building is to add water softening capabilities to the main line of the water system that is fed by this wellhead. Extra excavation is required as the building will be located in the 100- year flood plain, and storage volume mitigation is required. VWS is exempt from the standard permitting process as they are a publicly regulated utility, however the declaration of exception is still required by the commission.

A motion was made by: D. Garewski that IW 08/20 #08 for Valley Water Systems to construct a water softening building at 0 Woodford Avenue (MBL 30-A-08) is not a significant activity

Seconded by: R.Carrier

All in Favor 4-0 Motion Passes

5. BILLS AND COMMUNICATIONS

None
