3. Discussion :

Dan advised that four republicans and three democrats were elected to town council. Five votes are needed to pass a proposal. He believes that the four republicans will support a dog park and hopefully one democrat vote in favor of the dog park for the proposal to pass.

The commission talked about developing a dog park flyer to be distributed by to friends, and neighbors in hopes of rallying them to come to the public hearing and/or send an e-mail to the town council to be read at the meeting.

Flyers will be sent to those people that were originally interested in a dog park back in January 2016

Dan suggested that we all try to get at least three friends and neighbors to speak at the public hearing. That would make at least people fifteen speaking in favor of the dog park.

Dan indicated that he sent out a letter to the two new council members, Messrs, Cox and Gnazzo offering to present the power point presentation that was given previously to the council and also answer any questions that they may have about the plans for the dog park.

4. Public Comment

Greg Diaz, 34 Park Street volunteered to help present the power point present that he and Karen Okoski prepared.
