

The Trump Administration Is Supporting the People of Connecticut To Combat the Coronavirus

Connecticut State and Local Partners,

Thank you for your continued efforts in the whole-of-America approach to respond to and mitigate the impact of COVID-19 (coronavirus) for the benefit of the people of Connecticut. As you know, our citizens are best served when response is locally executed, State managed and Federally supported. The Federal government scales best practices, coordinates key priorities, provides regulatory flexibilities, guidance, and key resources to supplement, but not replace, private sector, local, and State resources. On January 31, the Trump Administration [declared](#) the coronavirus a public health emergency. The declaration set in motion the Trump Administration's whole-of-government approach to protecting the health of Americans in response to the coronavirus. Working in partnership with State, Local, and Tribal leaders, the President and Administration have and continue to leverage all resources to respond to the coronavirus, bringing together government and private industry in a collaborative response.

Attached, please find a fact sheet (***The Trump Administration Is Supporting the People of Connecticut***) overviewing Federal coordination and assistance provided to the State of Connecticut and the people of Connecticut to combat the coronavirus. The attached information is bolstered by hundreds of additional actions by the Federal government to help the people of Connecticut in partnership with State and local leaders. The White House Office of Intergovernmental Affairs (WH IGA) will continue to share pertinent information as it becomes available. Please do not hesitate to reach out to our office if we can be of assistance. As a

reminder, WH IGA is the primary liaison between the White House and the country's State and local elected officials and Tribal Governments.

Sincerely,

The White House Office of Intergovernmental Affairs
